LISTENING

Your scaled score is close to 200. Test takers who score around 200 typically have the following strengths:

- They can understand short (single-sentence) descriptions of the central idea of a photograph.
- They can sometimes understand the central idea, purpose, and basic context of extended spoken texts when this information is supported by a lot of repetition and easy vocabulary.
- They can understand details in short spoken exchanges and descriptions of photographs when the vocabulary is easy and when there is only a small amount of text that must be understood.
- They can understand details in extended spoken texts when the requested information comes at the beginning or end of the text and when it matches the words in the spoken text.

To see weaknesses typical of test takers who score around 200, see the \*Proficiency Description Table.

|                                                                                                                   |    |
|-------------------------------------------------------------------------------------------------------------------|----|
| Can infer gist, purpose and basic context based on information that is explicitly stated in short spoken texts    | 63 |
| Can infer gist, purpose and basic context based on information that is explicitly stated in extended spoken texts | 41 |
| Can understand details in short spoken texts                                                                      | 42 |
| Can understand details in extended spoken texts                                                                   | 47 |

READING

Your scaled score is close to 250. Test takers who score around 250 typically have the following strengths:

- They can make simple inferences based on a limited amount of text.
- They can locate the correct answer to a factual question when the language of the text matches the information that is required. They can sometimes answer a factual question when the answer is a simple paraphrase of the information in the text.
- They can sometimes connect information within one or two sentences.
- They can understand easy vocabulary, and they can sometimes understand medium-level vocabulary.
- They can understand common, rule-based grammatical structures. They can make correct grammatical choices, even when other features of language, such as difficult vocabulary or the need to connect information, are present.

To see weaknesses typical of test takers who score around 250, see the \*Proficiency Description Table.

HOW TO READ YOUR SCORE REPORT:

Percent Correct of Abilities Measured:

Percentage of items you answered correctly on this test form for each one of the Abilities Measured. Your performance on questions testing these abilities cannot be compared to the performance of test-takers who take other forms or to your own performance on other test forms.

Note: TOEIC scores more than two years old cannot be reported or validated.
